Draft Strategies Focus Group Session
March 19, 2013
2 p.m. – 4 p.m.

Agenda

The focus group session is a way for the FHEW to review and provide feedback on the draft strategies developed for the Regional Plan for Sustainable Development (RPSD). In addition to the general discussion questions listed at the top of each survey sheet that address potential priority and missing strategies, we are hoping the group can explore the following:

- Can you identify any strategies that have a higher potential in leading to inequitable policies/actions? *While we understand that almost any strategy has the potential to negatively impact equity, we are hoping to identify any possible triggers and/or immediate issues.*
- How can the strategies be improved to ensure equitable outcomes?
